P. 021 08275674 E. romain@eqstruc.co.nz

Romain started as a consulting engineer in the United Kingdom in 2010 and has worked in New Zealand since 2014. Romain's experience in New Zealand has been in the assessment and seismic retrofit of historical and existing structures as well as a mixture of new commercial and residential building designs. In the United Kingdom, he spent three and half years working as lead engineer on several significant public and commercial structural and civil engineering projects.
